Launch

Doug Aaberg previewed this new Carlson Software Learning Management System (LMS) at our workshops last year and Carlson has finally released it! And, the best part is that Carlson Academy will be available right from the Help menu in Carlson 2020 programs and is free for up-to-date users.

That CAD Girl

Carlson Academy is a collection of modules and training courses for most of the Carlson desktop software programs. The lessons include both written and video tutorials covering features of the software and also many command-specific tips and tricks.

Doug provides a great [introduction to Carlson Academy here](#) and the rest of [his blog](#) is fantastic as well!
