Need to Swap? Need to Add? More Limited Time Specials on Carlson Software

December 2, 2019

I'm not sure how long these options will be available but Carlson has (FINALLY!!) given me the OK to accept orders to ***Swap!*** modules in or out of existing software bundles and to ***Add!*** more modules to existing licenses. This is a test run so let's see how it goes!

The option to ***Swap!*** a module out of a bundle for another one has been sorely needed and most requested by those who have previously purchased Civil Suite but find they don't use one of the modules very often.

Now, for only $500 you can swap one or more modules for any of the programs that are included in Carlson's Select Suite: Survey, Civil, GIS, Hydrology, CadNet or Point Cloud Basic.

Until now, if you own one or more modules and wanted to simply add one more program to the bundle, your only option

was to pay full price for the new program.

Now, again for a limited time, you can ***Add!*** any of the modules in the Select Suite for only $750. The programs available for this promotion are: Survey, Civil, GIS, Hydrology, CadNet or Point Cloud Basic.

The fine print: You must have an active maintenance plan to take advantage of this offer.

If you want to ***Swap!*** or ***Add!*** modules please email me to request a custom proposal.

Earlier in 2019 Carlson introduced the new line of Select Suite bundles which gives users the option to create your own bundle with only the modules you need so the need to ***Swap!*** won't be as important to us at some point. If you need to add a whole new license, click here to see our current pricing on Select Suite bundles of 2, 3, 4, 5 and 6 modules!
