

That CAD Girl

IntelliCAD, Carlson and Autodesk Software – desktop software for land development professionals

August 14, 2020

We had just a few fits and starts with presentations and recordings but, yesterday, we finally wrapped up this 3-part series.

My goal with these webinars was to present an up-to-date overview and explain costs and licensing options for desktop software for surveyors, engineers, contractors and other land development professionals.

That CAD Girl

The recordings are available below. The “registration” process will ask for name and email address but, unless you’ve otherwise requested to be on my mailing list, I promise not to add you to my database. If you want to be notified of news, upcoming events and specials, you can [click here to register for our newsletter](#).

7/22/2020 [Autodesk Licensing Changes – Plan for the Future and How it Will Affect Carlson Software Users](#) presented by [CADMasters](#)

7/31/2020 [Carlson Software Overview: All Substance, No Styles!](#)

8/13/2020 [IntelliCAD Overview: Where it WAS. Where it IS. And Where it WILL BE.](#) presented by [Dave Lorenzo of the ITC](#)
