## Carlson Software 2023 has been released!

November 1, 2022

On November 1, 2022 [Carlson Software](#) released the [2023 version of their desktop products](#). With the 2023 release, Carlson is focusing more on performance and stability and a little less on new bells and whistles... I'm guessing the next version will be heavy in the other direction!

Carlson 2023 products will ship with both a preview release of IntelliCAD 11.0 and 10.1 and can also run on top of your separately purchased license of AutoCAD 2018-2023.
