So, How WILL We Buy CAD Software in 2016...?

June 28, 2015

[Robert Green](#) seems to have answers for everything – if you haven't [subscribed to his CAD Manager Newsletter](#) yet, you should!

Here, in [How Will You Buy CAD Software in 2016?](#), he tackles Autodesk's move to a Subscription only (rental) distribution model and encourages everyone to prepare for the transition now.

The only quibble I'd have is with this quote:

It's important to note that this change will affect only those customers who already own perpetual licenses of standalone desktop software; it does not affect customers using Autodesk product suites or those already on a desktop subscription plan or using cloud services.

Anyone who has been through the Land Desktop transition to Civil 3d should understand that statement is probably best

That CAD Girl

read with a big **YET** inserted at the end...

Thank You for A Great 2014!

June 28, 2015

Carlson Software recently let me know that – for the 5th year in a row!! – That CAD Girl was #1 in sales of their desktop products!

I owe a huge “Thank You” to my current customers who come back to me for additional purchases and for passing my name along to others because I know I couldn’t do this without you.

The best compliments I receive are your referrals and I look forward to working with you in 2015 and beyond.

March, April & May Webinars – Now Posted!

June 28, 2015

I've just updated my list of [Upcoming Webinars](#) for the next few months. There are several new and reconfigured sessions and I've got Mark Long, Carlson's Hydrology expert, on board to show a lot of the design capabilities in Carlson Hydrology in March. Mark's the best and I think you'll get a lot out of his training.

A couple other classes are on the list because you asked for them! They're narrowly focused classes on very specific topics: Carlson Annotation, Surfaces and Breaklines and Working with Paper Space, Sheet Set Manager and Creating Custom Title Blocks. You'll have ample opportunity to ask questions and start using what you learn right away!

Here's the link to [pre-register](#) and, if you're not [eligible to attend for free](#), here is the link where you can [purchase a](#)

[year's access to the webinars.](#)

It's Trade Show Season – Come See Me!

June 28, 2015

It's trade show season again and I am happy to get the chance to go visit old friends and meet new ones over the next few months...

Next one upcoming is the [SAMSOG Technical Seminar in Atlanta](#) later this week. I appreciate the opportunity to present my classes to this group for the first time and I understand it's going to be quite a crowd; but they take walk-ins on the day of the event. I'll be covering *Tips & Tricks in CAD and Carlson* and an *Introduction to Field to Finish*.

Next will be the [NJ SurvCon in Atlantic City](#) which starts on

That CAD Girl

2/4. I think this is my third year and I really enjoy seeing everyone although they all tell me I talk funny! Again, it's *Tips & Tricks* but I'll also be presenting *How to Take a Project from Field to Finish with Carlson Survey*.

February 11th thru 13th I'll be in Columbus, Ohio for the [40th Anniversary of PLS0's Annual Conference](#). I'll be in the exhibit hall for most of the time but on Friday will be teaching *CAD & Carlson Tips & Tricks*. Make sure you visit my booth and see how your CAD skills match up to surveyors in other states!

And, lastly (I think), I'll be in Murfreesboro TN at the [TAPS 47th Annual Meeting & Exhibition](#) from March 12-14. I'll be in the exhibit hall most of the time but will also be teaching *Field to Finish for Survey and GIS Collection from a GIS Dummy* on Thursday March 12th.

It's not a trade show but don't forget [Carlson's 2015 User Conference](#) at the end of April. I'll definitely be there since it's practically in the backyard of my hometown in Kentucky.

That CAD Girl

Looking forward to seeing everyone!

Carlson Tip: Using Carlson Software? Here's what to look for in a new computer

June 28, 2015

Problem: You're running Carlson Software and need a new computer... What do you need and how much do you need to spend?

The shortest answer is to follow this link to Carlson's website: [Carlson Software System Requirements](#)

The short answer, if you're running one of Carlson Software's programs with embedded AutoCAD/OEM or on top of a full AutoCAD, is to follow Autodesk's system

That CAD Girl

recommendations/requirements for the platform. The Carlson part that runs on top has a relatively light footprint compared to the AutoCAD underneath, so you'll need to make sure your new computer can run the AutoCAD-engine and the rest will be fine.

Carlson running on top of IntelliCAD also has a pretty light footprint compared to anything developed by Autodesk. Unless your drawings are loaded with a lot of layout tabs and viewports, there's a very good chance an off-the-shelf computer from Best Buy or Wal-Mart will be sufficient.

Since I'm a self-described hardware "dummy" and that's not the most technical answer, I asked Leonid Entov, the Assistant Director of Office Software Development at Carlson Software, for a better, layman's-terms answer:

In one sentence, I would summarize recommended computer as i7 processor, discrete graphics (not integrated), preferably Nvidia chip since we seen more of driver issues with ATI/AMD and 8 gb of RAM (Windows tends to eat too much of 4gb these days). You do not have to go to gaming computers, something like this would be possible to find in \$700+ range in laptops.

That CAD Girl

Since there are too many CPUs on the market, this site helps to compare individual CPUs : http://www.cpubenchmark.net/cpu_list.php

Thanks Leonid!

And I can't post this without reminding everyone that Carlson's tech support team is great and will be happy to answer any specific questions you have. Their tech support is free, all the time, whether you're using a 30-day trial or if you've already purchased and whether you're using the most current version of the software or one that's 10 years old.

2014 That CAD Girl Workshop

That CAD Girl

– Time to Register!

June 28, 2015

[It's workshop and PDH time again!](#)

We're mostly following the same calendar as last year with a 1/2 day in Asheville and 2 full days in Statesville and Raleigh. Each event includes drinks, snacks, lunch, door prizes/giveaways and "day-of-show" pricing for Carlson Software including new seats and maintenance renewals.

Register for the Statesville events by Sept 30th or for the Raleigh events by Oct 31st for early registration discounts. Late fees will be applied to registrations within one week of each event.

Carlson Tip of the Day... Virtually “printing” to PDF, DWF, JPG and PNG files

June 28, 2015

If you've recently switched from an AutoCAD-based program to Carlson with IntelliCAD, one thing you may miss is having the ability to virtually “plot” your drawings to PDF, DWF, JPG and PNG files instead of to paper. This functionality is not included in IntelliCAD and,

from what I understand, including it would have significantly increased the price of each license so the developers decided to leave it out and allow users to purchase add-on programs if needed the functionality.

That CAD Girl

So, if you need to print to one of these formats, how can you do it?

If you primarily need to create PDF files and don't mind spending some kinda-big bucks, you can purchase a program such as [Adobe Acrobat](#). Acrobat is a standalone program but it also installs as a virtual printer into Windows-based programs like Carlson, AutoCAD and even Microsoft Windows and Outlook.

If you need to print to PDF, you could save some money and consider other after-market programs such as [CutePDF](#) or [PDF995](#) (or many others) that essentially serve the same purpose – installing as a PDF printer into Windows-based programs. Most of these programs have a free version but there's usually a catch such as a watermark on each PDF that says something like, "This document printed with ...". If you purchase one of their other products, the watermark goes away. I currently use [Adobe Acrobat](#) but used [Win2PDF](#) for years.

If you need to print to PDF but also to other formats such as PNG, JPG and TIF, you may want to take a look at [PDF Creator from SourceForge](#). I know this is the utility recommended by

That CAD Girl

several of the tech support team at Carlson but I haven't used it myself.

I am not sure if the other programs that I listed above (PDF995, CutePDF and Win2PDF) allow you to "print" to formats other than PDF and I can't tell from their websites but, if anyone knows and wouldn't mind passing that information along to me, I'll update this post with the additional information.

As mentioned above, having these PDF-creating programs installed like a printer directly in your Carlson programs makes them very convenient and handy – but there is most likely a cost associated with them all.

My final recommendation is free, but a little less convenient – it's [Autodesk's DWG TrueView](#) (this link changes all the time – apologies in advance). It's free, but it allows you to use all the virtual printers included in AutoCAD such as DWGtoPDF, DWGtoJPG, DWGtoPNG and DWF ePlot. In addition, TrueView also includes the oh-so-cool DWG TrueConvert program that enables you to convert one or more DWG files from any version to pretty much any other version. The downside to using this program is that it's a standalone program so you must save your drawing and then open again in TrueView in

That CAD Girl

order to plot.

Happy Plotting!

Carlson Survey 2015 with Embedded AutoCAD has been released

June 28, 2015

That CAD Girl

MAYSVILLE, Ky., U.S.A. (August 13, 2014)– Carlson Survey 2015 OEM is an easy-to-use, intuitive software. Its newest update provides upgrades to the 3D viewer that allows users to apply textures, animation, surface updates, even record movies and import Sketch-Up objects. The software's popular field-to-finish feature has also been enhanced for 2015 to allow surveyors to do coding on pipe networks that then allows them to build a network of pipes.

Together with Carlson Survey 2015 version, which works on AutoCAD® versions 2007 to 2015 and comes with the improved IntelliCAD® 8.0 built-in, Carlson Survey OEM is the number one office software solution for surveyors in the United States.

Autodesk Policy Change – No Upgrades After Feb 1, 2015

June 28, 2015

As a current Autodesk subscription customer, I received this message in my Inbox yesterday:

That CAD Girl

The link to find out more takes you here: [Frequently Asked Questions about the Autodesk Upgrade Policy](#)

I think we all saw this coming but now that it's upon us, it's time to make sure our software licensing ducks are in a row.
