Reminder! 2021 Year End Specials are expiring soon!

December 30, 2021

Just a reminder that you have a little more than 24 hours to take advantage of Carlson's year-end specials! This year's specials include Survey with embedded AutoCAD (OEM), Takeoff with embedded AutoCAD (OEM), Select Suite Pick 2, Select Suite Pick 4, Civil Suite, Takeoff Suite and P3D Topo with

Hydro.

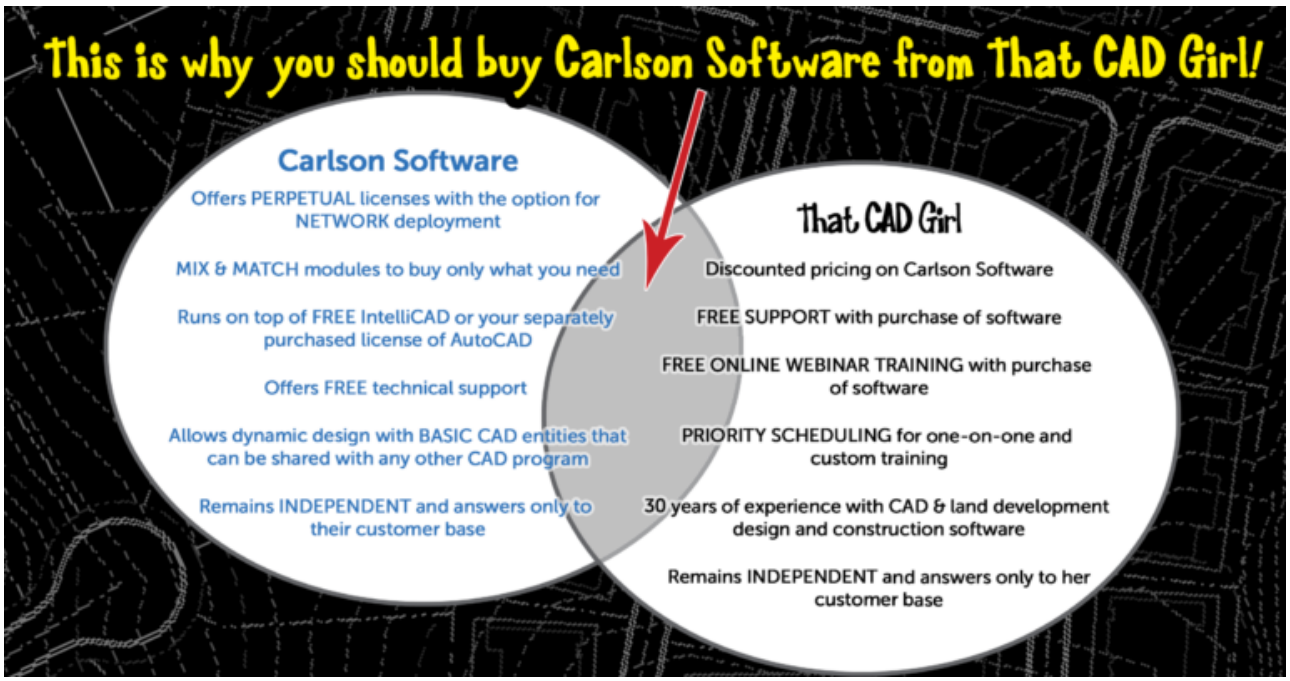

Discounts will expire on 12/31/2021! You may also want to keep an eye on our Active Coupon Codes for additional discounts.

What else? All software purchases through That CAD Girl are eligible for a year's access to our live, interactive webinar training sessions. We aren't just interested in selling you the software – we want you to use it and love it! Also, customers of That CAD Girl get priority scheduling for any available custom training slots with Travis Maxwell or Jennifer.

If you'd like to learn more about Carlson Civil Suite and Takeoff Suite, you can visit and subscribe to our YouTube channel here.

Takeoff Suite, [you can visit and subscribe to our YouTube channel here](#).

Please Join Us for Our 2021 Virtual Workshops!

December 30, 2021

Better late than never, right?

It took way too long to get this organized this year – and it's mostly a new format – but I hope you'll find the longer-form presentations will be a good alternative until we can all get back together and in person!

This year we will have one day of tips-and-tricks

presentations (from pros that you know and pros that you don't) and then 3 full days of in-depth Carlson software training that covers introductory lessons for beginners through very advanced surface modeling and survey functionality.

We will be including one free workshop registration with the purchase of any full license of Carlson Software and, if you've been a regular attendee for our monthly webinar series presentations, you might also be eligible to attend for free.

The cost for all 4 days is $99 and your workshop registration will include:

- your option to attend any or all sessions over 4 days
- certificates of attendance for professional development
- Day of Show Specials on software, upgrades and maintenance renewals

Claire to the Rescue!

December 30, 2021

I've often joked that I made a mistake when I started doing business as That CAD Girl – since the name didn't give me room for expansion! For the most part I've been able to leverage advances in technology to grow the business while continuing to do most everything by myself. But it's now been close to 20 years; and, though successful, for several years I have stressed over the fact that too much of my time is spent on the admin side of the business and not enough spent on training and support for my customers.

So I'd like to introduce you to Claire DiBlasi as my new partner in crime. Claire has a BS in Business Management Information Systems and 18 years in the IT industry. Most recently she has been working with our local school system. You can click here to learn more about Claire.

Claire doesn't know CAD (yet!) but she's more than qualified to help with every other aspect of the business and help free me up for more training and support. She's my HERO! She only started working with me in March and it's already clear how much of a difference she's going to make!

What's in Store for Those CAD Girls…?

We have several big changes we're working to put in place that will allow us to better serve and respond to our customers. However, I'll ask for your patience over the next few months while we are in transition. I'll probably have to rely on friends like Mark Long, Doug Aaberg and others a bit more for webinars and custom training for the next few months

but, after that, I should be able to take on more of those training tasks myself. My plan is to have our new processes up and running by early fall and in time for Carlson's next release.

In the meantime, there will be some growing pains as we implement some new phone numbers, email addresses and procedures to make sure we're more available to you in the future. Claire may end up being the first line of support for many questions but I can always still be reached at 919-417-8351 and jennifer@thatcadgirl.com if you need to talk to me directly.

I think you'll like the changes we have in store for That CAD Girl. I love what I do and only want to do it better and provide an even better experience for all of you trying to find your way through the labyrinth of land development software!

I'd like to take this opportunity to thank all of you for your loyal support through the years. Please share all that love with Claire – she's awesome!

Help NC Surveyors AND Go to the Coca-Cola 600!

December 30, 2021

Here's your chance to help out the NC Society of Surveyors and also register to win a pair of tickets to the Coca-Cola 600 this weekend in Charlotte!

For every $25 entry, you will have a chance to win 2 tickets for Sunday's race. Profits will go to benefit The Education Foundation and NCSS MAPS, you decide (multiple entries allowed). Call to purchase for your chance to win. Drawing to be held at 4:30pm on Thursday, May 27th. 919.556.9848.

The NCSS Museum of Archives and Preservation of Surveying, Inc. (NCSS MAPS, Inc.) provides an avenue to preserve the past of surveying and invest in the future.

Does Carlson Software REALLY Have All the Answers for Surveyors?

December 30, 2021

Well, you can be the judge! This is a very well-developed Case Study authored by Carlson Survey Training Specialist Doug Aaberg and published in xyHt magazine (which you SHOULD subscribe to by-the way…)

I think regular attendees of our Webinar Series have gotten a bit of a preview of Doug's case-study in the webinars he presented for us in March and April. Doug is already on the schedule for Carlson Survey Training for May and June and we have tentative plans for future, ongoing, monthly webinars with him.

That CAD Girl

Our webinar series is free for anyone who purchases software directly through That CAD Girl or you can purchase a 3-month or 12-month pass through our online store. If you're not sure about all that… just pre-register here to attend as a guest. We'd love to have you!

And, although the webinars are intended to be live and interactive, if you'd *really, really, REALLY* like to see a recording of a webinar you missed, please email me and I'll see what I can do

A Field to Finish Webinar You Don't Want to Miss!

December 30, 2021

That CAD Girl

You don’t want to miss our webinar with CAD Specialist, Doug this week! He’s going to show some of the deep, dark secrets of Carlson’s Field to Finish!

If you’re using Field to Finish but want to have it do more for you, he’s going to show you several ways to do so. The focus of this CAD Specialist demonstration will be to reduce keystrokes and automate drafting using tree surveys, fixed parameters and companion codes.

Our webinar series is free for anyone who purchases software directly through That CAD Girl or you can purchase a 3-month or 12-month pass through our online store.

That CAD Girl

If you're not sure about all that… just [pre-register here to attend as a guest](). We'd love to have you!

From field, to office and back to the field… Carlson Has You Covered!

“See” you soon at the Western Regional Virtual Surveyors Conference!

December 30, 2021

I’m very excited to be taking part in this year’s Magnificent Seven – Western Regional Virtual Surveyors Conference.

This is an exciting joint effort between these 7 participants:

Alaska Society of Professional Surveyors

Arizona Professional Land Surveyors

California Land Surveyors Association

Land Surveyors' Association of Washington

Montana Association of Registered Land Surveyors

Nevada Association of Land Surveyors

New Mexico Professional Surveyors

We are going through all of our orientations, setting up our Virtual Booth and are looking forward to interacting with everyone.

We will be posting updates soon that tell you when to plan on visiting our Virtual Networking Lounge for your chance to win a gift card for the highest score in our online CAD Test and for our schedule of 10 minute presentations on Carlson training and CAD Software Tips & Tricks, Introduction to IntelliCAD as an alternative to your AutoCAD and so much more.

In the meantime, please send us an email if you have any

other Carlson training questions or are interested in attending any of our upcoming live, interactive webinars.
