2022 Virtual Workshop Registration Discount!

November 21, 2022

Although we've already completed 2 of our 6-days of workshops, we've continued to get calls and requests to register for the remaining days.

It's true that "the best is yet to come" but, in the spirit of Thanksgiving, Black Friday and end-of-year specials, we've decided to reduce the cost of the registration to $99 for the remaining sessions.

Coming up Tuesday Nov 29th, we are putting the sales, support and development teams from Carlson Software in the hot seat to answer your questions! You won't want to miss this!

Christmas comes early… Carlson just announced their

year-end specials!

November 21, 2022
Well, it ***says*** November 1st but I just received an email that they've launched this promotion today to coincide with a magazine advertisement! I know a lot of you have been waiting for this promotion and it's finally here.

For a limited time I'm also offering a special "build-your-own-suite" package that will allow you to choose any 4 of these programs to create the bundle that works best for you: Survey, Civil, Hydrology, GIS, CADNet, Trench or GeoTech.

You can [request a custom proposal] if you're interested in the "build-your-own-suite" or [visit my online store here to purchase the standard Civil Suite and maintenance].

Remember, all purchases through That CAD Girl make you and your co-workers eligible for a year of our [live, interactive webinars] (see [list of upcoming topics here]) so you won't simply be left on your own to learn a new software. Documentation of attendance will be provided so you may also receive PDH credit from your licensing agency.

Carlson Software Product Updates 7/1/2015

November 21, 2022

It's been about a month since Carlson released the latest build of their 2015 desktop products so I figured it was time to post them here for easy access…

Download 6/9/2015 build here This link takes you to the page where you can download a full version of the software or updates to bring your 2015 up to date.

Updates to the following desktop modules are included in this file: Survey, Civil, Hydrology, GIS, Basic Mining, Geology, Underground Mining, Surface Mining, Natural Regrade, Field,

CADnet, GeoTech, Trench, Construction and Point Clouds. This can be installed on AutoCAD 2007-2015 or with included Intellicad 8.0. AutoCAD 2010-2015 releases are supported on 64-bit Windows. Your Carlson 2015 Serial number is required for installation.
Carlson 2016 will be released before too long. If you've let your maintenance contract expire (accidentally or on purpose!), now would be a good time to get back on board. If you renew before 2016 is released, it'll be cheaper and you'll receive 2015 now and 2016 when it's released. Win! Win! Win!

You can request pricing for new licenses or upgrades here

And, while I'm at it, here are the links to download the latest updates for other programs:
