That CAD Girl

Does That CAD Girl training qualify for PDH/CEU/continuing education credit?

August 23, 2015
Maaayyybbeee…

I am an approved provider of continuing education credit for the North Carolina Board of Engineers & Land Surveyors so anyone licensed in NC should have no problem.

For those out-of-state who attend my webinars or arrange for custom online training: Once (or maybe twice if I'm really on my game) a year I send out emails that "Acknowledge Your Attendance" in our webinar(s). This is not a guarantee that the hours will be accepted by all licensing boards but, it *IS* training, not a sales pitch, so I have a hard time seeing how they could deny credit..

Also, for all custom online CAD training and CAD webinars,

recordings of the sessions can be provided in the case of an audit.
