My Maintenance is Current… Where's My Upgrade?

October 28, 2022

One of the best things about keeping your Carlson Software maintenance plan up-to-date is that you have access to the latest and greatest version of the software whenever you're ready to take the plunge! Some users can't wait to install the newest version as soon as it's released but others wait for the first new Build to be posted and then go for it.

With the building out of your That CAD Girl Customer Portal, we are doing our best to have all the information you need about your serial numbers easily accessible and available to you.

As soon as possible after a new release, we will post your new, upgraded serial number(s) to your Customer Portal and will upload a new maintenance report showing your new serial number(s). However, if you get to this before we do… you can use the Carlson Software Serial Number Upgrade Lookup site to get your new serial number as soon as it's released.

That CAD Girl

Carlson Software Serial Number Upgrade Lookup

Use the form below to locate your upgrade serial number (if applicable). To find the existing serial number of the product you are currently using:

1. Launch the existing version of the Carlson product.
2. Use the table below as a guide to locate the serial number.

Carlson Serial Number Locations

Product Family	How to Find Serial Number
Desktop CAD:	Help Menu → About Carlson → [Change] Registration
SurvCE/SurvPC:	• For Version 6 and later: Main Menu → File Tab → About SurvCE/SurvPC → [Change] Registration • For Version 5 and older: Main Menu → Equip Tab → About SurvCE/SurvPC → [Change] Registration
Precision 3D:	Help Menu → Registration

Existing Serial Number:
Phone Number:
Customer ID (if known):
Email Address:
Clear | Find Upgrade Serial Number

Return to Carlson Software home page.

You will need the items listed below. Your serial number and Carlson Customer ID can be found on your That CAD Girl Customer Portal:

- Your current serial number
