Features and Benefits of Trench 2017

Carlson Trench is for calculations related to installing pipes, sewers, or utility lines. The CAD software calculates the volume of the trench cut, the volume of backfill (excluding the pipe size), and the linear footage of pipe broken down by the pipe material, size, and/or depth.

Carlson Trench is fully integrated with **Carlson Civil** and **Carlson Construction**, and also **Carlson Hydrology** to meet the variety of customers' needs.
