Are you ready for Carlson 2016?

July 24, 2015

Carlson is expected to release the 2016 versions of their desktop software packages that include IntelliCAD or run on top of your AutoCAD later this month. If it follows the same pattern we can expect the embedded AutoCAD (OEM) versions of Survey and Takeoff a couple of months later.

The 2016 products can be installed on top of any full-AutoCAD program versions 2010-2016. Since Autodesk didn't change the DWG format this year, you should be able to open and work with 2016 files with programs based on AutoCAD 2013-2015 without having to save back to an earlier version.

The 2016 release will include IntelliCAD 8.1 which, so far during my limited time testing, seems to be working pretty darn well. I'm excited to see more support for Annotative Text and a lot of interface enhancements (like a ribbon) that make it look more and more like the brand-name product.

The annual maintenance plan is still the cheapest way to keep your desktop software (ICAD/for CAD) up to date. If you have let your maintenance lapse but think you're ready to upgrade, now is seriously the time to do it because your pricing to upgrade/reinstate maintenance will go up as soon as 2016 comes out. It's also nice to be able to immediately get the 2015 upgrade and have access to the 2016 whenever you're ready.

In addition, Carlson is trying to get SurvCE and SurvPC on an annual release cycle so we should see 5.xx come out this year. With this change, you'll also see these products start showing up as available for an annual maintenance plan. If you're running an older version of SurvCE and would like to upgrade, you can upgrade and purchase maintenance to immediately upgrade you to 4.xx and also receive 5.xx when it comes out. One word of caution though – make sure to check the table on this page to make sure the newer versions of SurvCE and SurvPC will still communicate with your equipment.

Current Autodesk Promotions

– Rebates, Renewals & AutoCAD LT

July 24, 2015
With the end of perpetual licensing for some/most Autodesk products coming on January 16, 2016, Autodesk is running a few promotions to encourage current users to embrace the switch.

Click here for Autodesk's Buyer's Guide or email me to request access to the recording of my recent webinar with an Autodesk reseller and Carlson Software programmers explaining how these changes may affect us going forward.

You will want to touch base with your local Autodesk reseller or, if you don't currently work with anyone, email me for a recommendation…

Some of the promotions include:

- Discounted purchases of AutoCAD LT
- Rebates on new seats, maintenance and desktop subscriptions – Ends July 24, 2015

- Financing options and discounts for multi-year renewals – Ends July 24, 2015

Carlson Software Product Updates 7/1/2015

July 24, 2015

That CAD Girl

It's been about a month since Carlson released the latest build of their 2015 desktop products so I figured it was time to post them here for easy access…

Download 6/9/2015 build here This link takes you to the page where you can download a full version of the software or updates to bring your 2015 up to date.

> *Updates to the following desktop modules are included in this file: Survey, Civil, Hydrology, GIS, Basic Mining, Geology, Underground Mining, Surface Mining, Natural Regrade, Field, CADnet, GeoTech, Trench, Construction and Point Clouds. This can be installed on AutoCAD 2007-2015 or with included Intellicad 8.0. AutoCAD 2010-2015 releases are supported on 64-bit Windows. Your Carlson 2015 Serial*

number is required for installation.

Carlson 2016 will be released before too long. If you've let your maintenance contract expire (accidentally or on purpose!), now would be a good time to get back on board. If you renew before 2016 is released, it'll be cheaper and you'll receive 2015 now and 2016 when it's released. Win! Win! Win!

You can request pricing for new licenses or upgrades here

And, while I'm at it, here are the links to download the latest updates for other programs:

Survey 2015 OEM (embedded AutoCAD 2015) – Download the 5/8/2015 build here

Takeoff T8 OEM (embedded AutoCAD 2015) – Download the 3/23/2015 build here

SurvCE 4.0 – Download the 5/15/2015 build here

SurvPC 4.05 – Download the 5/15/2015 build here

So, How WILL We Buy CAD Software in 2016…?

July 24, 2015
Robert Green seems to have answers for everything – if you haven't subscribed to his CAD Manager Newsletter yet, you should!

Here, in How Will You Buy CAD Software in 2016?, he tackles Autodesk's move to a Subscription only (rental) distribution model and encourages everyone to prepare for the transition now.

The only quibble I'd have is with this quote:

> *It's important to note that this change will affect only those customers who already own perpetual licenses of standalone desktop software; it does not affect customers using Autodesk product suites or those already on a desktop subscription plan or using cloud services.*

Anyone who has been through the Land Desktop transition to Civil 3d should understand that statement is probably best read with a big ***YET*** inserted at the end…
