MAYSVILLE, Kentucky, U.S.A. (March 2019) — Now is the time for Carlson Software users to renew and save. Applicable for those who never signed up for maintenance or have let their maintenance lapse, Carlson Software office software customers will save when updating their software and sign up for maintenance by September 1st of this year.

[Renew Maintenance](#)

“Updating now will turn into substantial savings – as much as 40 percent for those who are still using Carlson 2016 for example,” says Scott Griffin, director of Sales for Carlson Software. “Plus, those who update will have the benefit of the annual improvements, which are often inspired by requests from our customers, that Carlson provides with its yearly releases.”

Those current on their maintenance will not be affected when expired-maintenance pricing also becomes 10 percent of the list price per year on September 1st, 2019. This charge for maintenance will be added each year it is not renewed, capping after five years at 50 percent. A sample breakdown for Carlson Civil Suite owners that let their maintenance lapse would be:

List Price \$3950 USD	Renew Today	After Sept 1st	Savings
Current	10% \$395	10% \$395	No Change
One Year Behind	15% \$592	20% \$790	25%
Two Years Behind	20% \$790	30% \$1185	33%
Three Years Behind	25% \$987.50	40% \$1580	38%
Four or More	30% \$1185.50	50% \$1975	Up to 40%

Those who need to work with the latest version of AutoCAD® will be able to do so with the Carlson 2019 update. They will also receive any new updates and improvements of their software that are released throughout the year. And, to further improve their understanding and use of the software, those current on their maintenance will get access to Carlson Academy (<http://learn.carlsonsw.com>), Carlson Software’s new online learning platform.

To learn more about the benefits of remaining current on maintenance, visit [the Carlson 2019 page on www.carlsonsw.com](#) or to check your maintenance status, go to [carlsonsw.com/maintenance](#).
